

01 Enterprise Profile

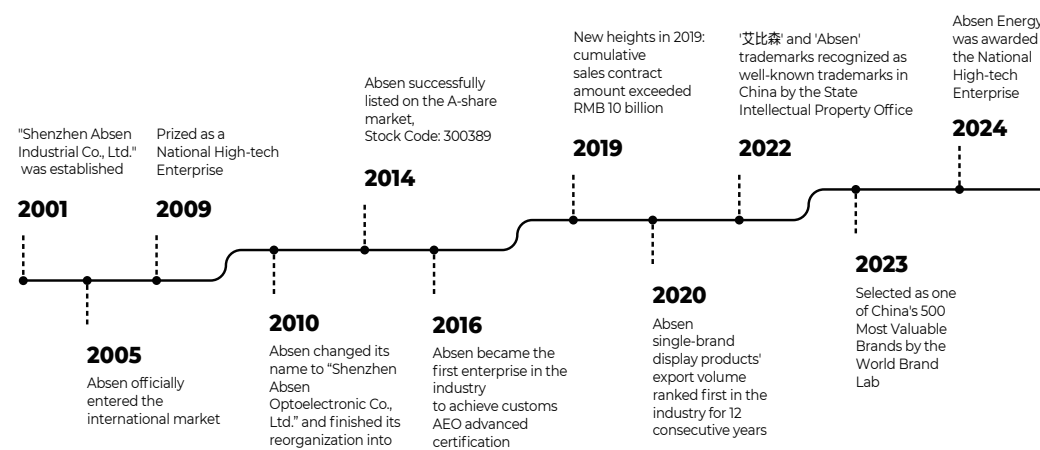

Absen Energy: Reliable Home & Business Energy Storage Solution Provider

As a subsidiary of Absen (Stock Code: 300389), a leading listed technology company, Absen Energy is dedicated to advancing the global adoption of energy storage systems. Guided by our mission — "Making green energy accessible to every home, business, and community" — we design, manufacture, and deliver high-performance energy storage solutions tailored for residential, commercial, and industrial (C&I) markets.

With a global footprint, our products and services span Asia, Europe, Africa, and South America, empowering customers in over 30 countries worldwide. From smart energy storage systems for households to energy management solutions for industrial and commercial scenarios, Absen Energy consistently delivers safe, efficient, and sustainable energy storage products and solutions driven by technological innovation.

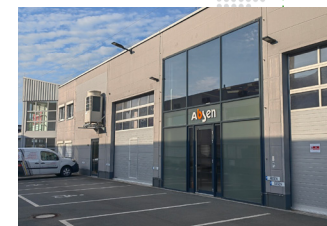

Development History

02 In-Market Presence

Global Reach

Absen has 18 domestic and overseas companies, and 30+ channel partners worldwide.

Localized service

By delivering localized services, we enhance response speed, fulfill customer needs, and boost satisfaction.

Brand marketing

By embedding in local cultures, precisely grasping regional cultural nuances and consumer needs, and crafting market-aligned brand strategies, Absen Energy has achieved rapid growth in the European market.

Logistics

Local warehousing, supported by a well-developed regional logistics network, enables efficient order fulfillment, rapid market coverage, shorter delivery cycles, and enhanced customer experience.

Localized Service

Industry-first ACE engineer training program, cumulative completion of 3000+ ACE service engineer certifications, 9 global service centers, 700+ service partners on 6 continents and in 33 countries worldwide, providing 24*7 specialized services.

Global Customer Service Center

Customer Service Center is a platform that provides customers with multi-channel access to the entire process of service consultation, service acceptance, service supervision, and service conversion.

03 R&D Innovation

Product R&D

Two Major R&D Centers

- 50%+ R&D Personnel
- 80%+ Bachelor's Degree or Above
- 50%+ Over 10 Years of Energy Storage Experience
- 30%+ Annual Growth Rate of R&D Investment

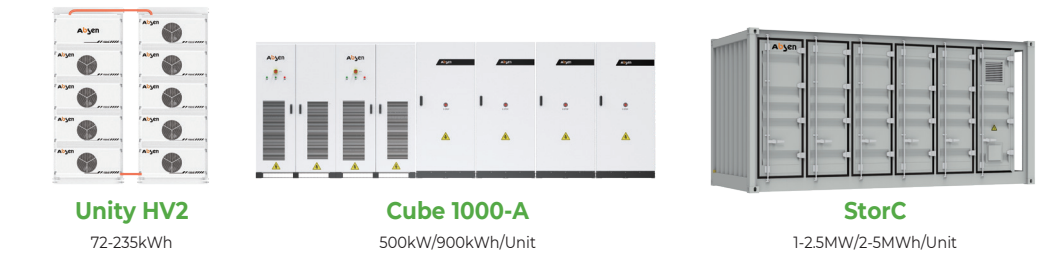

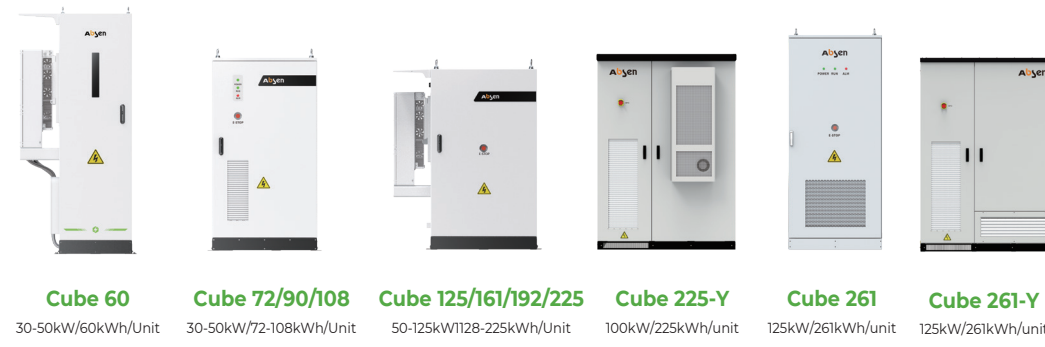

Intelligent Manufacturing

Floor Area	Production Area	Annual Capacity	Output Value	Automation Rate	Yield Rate
108000m ²	26000m ²	>2.5GWh	>2.5Billion RMB	>80%	≥99.9%

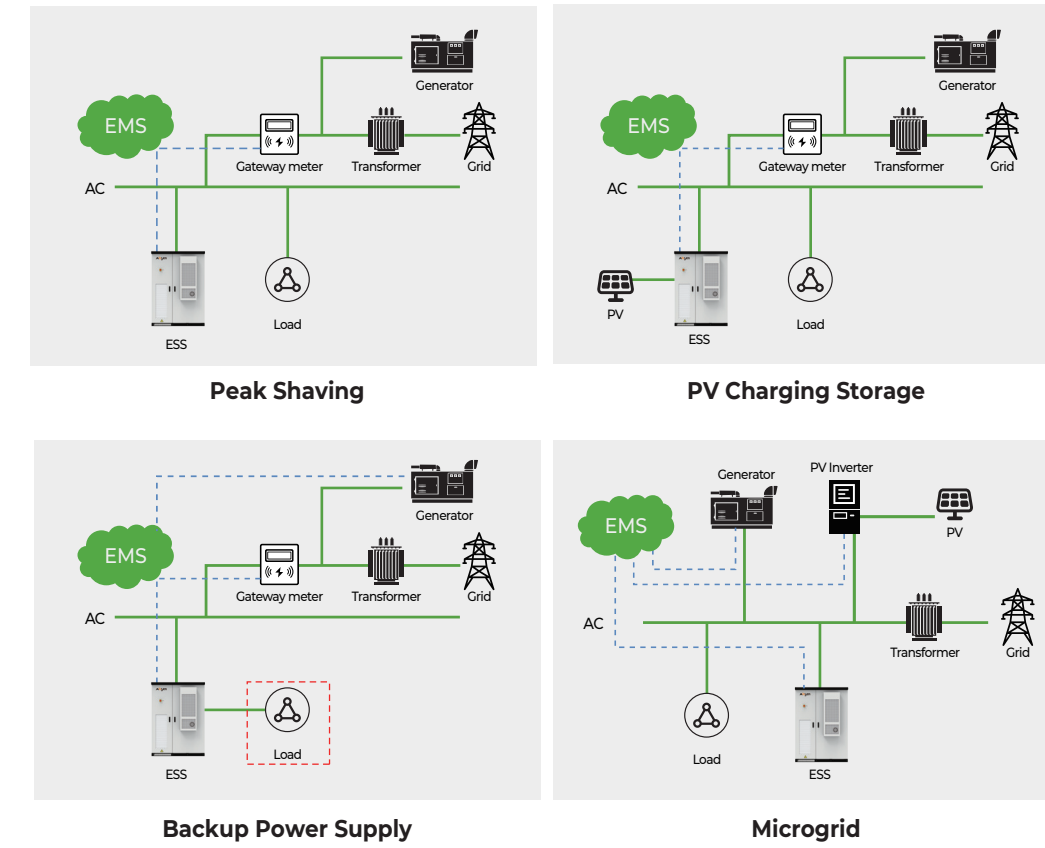

- Fully Automated Line · Robot Fully Automated Feeding
- Fully Automated Line · Robot Fully Automated Assembly
- Fully Automated Line · Fully Closed-loop Circular Laser Welding

04 Solution Introduction

C&I Energy Storage Products

Multi-scenario application

05 Absen Energy Powermate

Absen Energy Cloud

06 Project Cases

Myanmar Yangon 500kW/900kWh Energy Storage Project

Peru Arequipa 500kW/900kWh Energy Storage Project

Israel 400kW/1MWh Energy Storage Project

Myanmar Yangon 500kW/900kWh Energy Storage Project

Myanmar 125kW/261kWh Energy Storage Project

Middle East 50kW/125kWh Energy Storage Project

Middle East 50kW/125kWh Energy Storage Project

China Suzhou 8.18MW/16.37MWh Energy Storage Project

Guangdong Huizhou 2.3MW/4.6MWh Energy Storage Project

Guangdong Zhongshan 2.3MW/4.6MWh Energy Storage Project

Absen Energy

Commercial & Industrial ESS

Strong, Simple, Smart

Absen Energy | **Absen**
Stock code: (300389.SZ)

Reliable Home & Business Energy Storage Solution Provider

Efficient management

- Multi-role perspective management billboard
- Power station self-identification and self-organizing network access
- Remote batch settings make upgrades easier

Intelligent operation and maintenance

- Online instant consultation and service
- Intelligent analysis of power station revenue and operation trends
- Automatic inspection and report generation

Peace of mind

- Cloud security guard, early warning of potential risks
- Notify terminal promptly and accurately locate the fault location
- Cell-level multi-dimensional real-time information

Innovation architecture

- Integrate AI large models and customize exclusive services
- Cloud service architecture supports unlimited device access
- Quick system function selection and upgrade

Ruidian Green Energy Technology Co.,Ltd
Office Address: A801 Building 3A, Cloud Park, Bantian, Longgang District, Shenzhen
Factory Address: No.3, East Hua'n'an Road, Dongjiang Hi-Tech Industrial Park, Huizhou
